I

Letter from Messrs. G. R. KELKAR and N. S. PADBIDRI, Joint applicants for a licence under the Indian Electricity Act, 1910, to the Chief Engineer and Secretary to Government, Public Works Department, dated Kodialbail, Mangalore, the 10th March 1925.

Application for Licence.

(The Mangalore Electric Licence, 1925.)

We, the abovenamed persons, have the honour to tender this, our formal application, for favour of your kind consideration and, subject to your approval, the grant of a licence under the Indian Electricity Act of 1910.

In compliance with Rules laid down for applications under the said Act we append hereto—

(1) Six copies, in print, of the draft licence,

(2) One signed copy of a map delineating the area within which it is desired to supply energy, and the compulsory lines (scale 10" to 1 mile), and,

(3) A treasury receipt for rupees five hundred, the prescribed fee.

Local authorities concerned—

(1) The Mangalore municipality,
(2) The Port authorities,
(3) The District Superintendant of Police, and
(4) The South Indian Railway Company, Limited.

Land acquisition.—It is desired to acquire for the Power house about two acres of waste land situated between Cantonment West Road, and Cantonment East Road which may be seen conspicuously shaded on the attached map.

This land is under the administration of the Police authorities, who, it is hoped, will not hesitate to relinquish it in view of the public utility to which it will be assigned coupled with the fact that the Local Government will have the option of taking over the undertaking at a future date.

Capital.—The initial capital expenditure is estimated at rupees two hundred and fifty thousand and this will probably increase to an ultimate capital of rupees seven hundred and fifty thousand.

Public notification.—The Public Advertisement of this application shall appear in three consecutive issues of the Mangalore Mail (a local paper), copies of which shall be forwarded in due course.

Letter from E. J. B. GREENWOOD, Esq., M.SC., M.I.E.E., M.I.E., Electrical Inspector to Government, to the Secretary to Government, Public Works Department, dated Madras, the 5th May 1926, No. 1088.

[Mangalore Electric Licence, 1925—Your Endorsement No. 948 A.D./25-3, dated 16th March 1925.]

During my visit to Mangalore I met the two joint applicants. They seemed to have no practical experience in town supply schemes; their investigation of this scheme was of a superficial nature; and they struck me as having taken up this matter purely as a speculation. Although in accordance with clause 4 (a) of my draft licence the applicants are to show within one year from the date of granting the licence that they are in a position financially and otherwise to carry out the licence, I think some proof of the genuineness of the applicants should be forthcoming now. The mere lodging of an application with its fee of Rs. 500 and the fact that no objections are received are not in themselves sufficient reasons for the grant of a licence. I think Government may call on the applicants to prove their ability technically and financially to carry out the licence.

I offer the following remarks on the draft licence:—

Clause 2—(*a*).—Following the usual form of licences I have added four annexures and have defined them in this clause.

(*b*) In draft clause 11 (1) relating to maximum charges, the rate per unit of supply is given; in order to make the licence complete, the term "unit" has been defined in my draft.

3. *Clause* 3—*Security*.—This clause should be replaced by the security clauses (a) and (b) approved in G.O. No. 109 W., dated 26th January 1923. In sub-clause (b) of the approved clause provision should be made for depositing the security within six months as proffered in the applicants' draft licence; the amount of security to be deposited may be fixed at Rs. 5,000 which is the amount specified in all similar licences; the Rs. 2,000 security specified in the draft licence is quite insufficient.

4. *Clause* 4—*Area of supply*.—In this clause the area of supply is not clearly defined; it has been I think made clear in my draft licence.

5. *Clause* 5—*Purpose of supply*.—I have remodelled it on the lines of clause 6 of my model licence.

6. *Clause* 6—*Telephones*.—This is a matter coming under the Indian Telegraph Act and so is out of place in a licence under the Indian Electricity Act; this clause should therefore be omitted.

7. *Clause* 8—*System of supply*.—(*a*) The draft clause is not only not clear but is also incomplete, it has been completely recast on the lines of clause 7 of my model licence.

(*b*) I have inserted a proviso that all electric lines in certain narrow streets and in a temple car street shall be underground.

8. *Clause* 9—*Compulsory works*.—This clause should be replaced by the compulsory works clause approved in G.O. No. 109 W., dated 26th January 1923 specifying in sub-clause (a) 15 months' time for the licensees to commence to execute the works and the list of streets given under the draft clause should be given in an annexure numbered First Annexure. In this connexion I would point out that

during my recent visit to Mangalore I visited the various streets and I recommend the insertion of three more streets numbered 8, 9 and 10 in the first annexure of my draft licence. The triangular plot of land now called Pentland Town at the junction of Sultan's Battery Road and Kulur Ferry Road is a municipal attempt assisted, I understand, by Government money to prevent overcrowding along the warehouse front of the town by the provision of cheap building sites with properly laid out streets; at present there are some 25 to 30 bungalows all occupied and land is available for more. To foster this attempt at town development I think the electricity should be made available there. From a perusal of the deposited map it will be seen that no provision for electrifying the north end of the town has been made. Hence my inclusion of main Nos. 8 and 9: these mains will not be remunerative for the first few years but not unreasonably may be provided as a quid pro quo in return for the virtual monopoly of an electric licence. I have inserted main No. 10 to supply the several public buildings--District Jail, Government Training School, Veterinary Hospital and Police lines—along that road. For Government's information I enclose a small scale survey map of the town showing in red ink the additions I recommend.

9. *Clause* 11.—This clause relating to maximum charges is not properly worded; it should be replaced by clause 12 of the model licence and the fourth annexure thereto. The uniform rate of eight annas per unit of energy consumed subject to a certain minimum monthly charge cannot be allowed; there should be two sets of rates, one for light and fans on a combined circuit and another for power purposes with a special rate for energy supplied to the municipal council. In the fourth annexure of my draft licence I have specified suitable rates for this case. It is also necessary that Government should have the power to compel the licensees to reduce their rates in the above cases should a supply of electric energy in bulk become available at any future date from a hydro-electric or other source of supply at such rates that the rates of supply of distributed energy under this licence could be reduced. In my draft licence I have provided for this contingency.

10. *Clause* 12—*Breaking up of streets, crossings of railways and waterways.*—I have altered this clause on the lines of clause 10 of my model form.

11. *Clause* 13—*Purchase of undertaking.*—Sub-clause (1) of this draft clause is longer than is necessary and the entire clause 13 has been replaced by clause 13 of my model form.

12. *Clause* 14—*Assignment of licence.*—This clause is not in line with the similar clause in licences already granted by this Government; it may be replaced by clause 15 of the model form.

13. The draft licence does not provide for the revocation of the licence should the provisions of any of the clauses of this licence be not complied with. Clause 16 of the model form provides for this case, and I recommend the insertion of a similar clause at the end of this licence.

14. I have prepared a draft licence on the lines of the above and I forward herewith a copy of that edition.

15. The enclosures received with your endorsement under reference are returned herewith.

[The Mangalore Electric Licence, 1925.]

With reference to your letter, dated 25th May 1925, I am directed to request that you will be so good as to furnish details of a few of the electrical works for which you and the Engineers of your Company have been personally responsible.

VIII

Letter from Messrs. G. R. KELKAR and N. S. PADBIDRI, The Mangalore Electric Supply Company, Limited, Mangalore, to the Secretary to Government, Public Works Department, dated the 4th July 1925.

[The Mangalore Electric Licence, 1925.]

We have the honour to acknowledge receipt of your letter No. 16-Gl.-2, dated the 13th June 1925. Your letter could not be replied earlier as Mr. Kelkar had gone to Bombay and the necessary particulars required had to be obtained from him.

We beg to give below the details called for:—

Mr. N. S. Padbidri obtained his first theoretical knowledge of electrical engineering from the International Correspondence Schools, Limited, of London. He is an Associate of the American Institute of Electrical Engineers. He has put up a service of nearly 18 (eighteen) years at Messrs. Cromptons at Bombay where he has gained considerable experience in City lighting schemes. The cities of Karachi and Nagpur were electrified by Messrs. Cromptons and during which period Mr. Padbidri has taken a part in the schemes. Recently he has worked in the scheme for the conversion of D. C. into A. C. (3,300 volts) for the Poona Electric Supply Company, Limited, floated and handled by Messrs. Cromptons. He has also helped in working out the scheme at Shivpuri (Gwalior) which consists of two sets of 75 K.W. each (3,300 volts) handled by Cromptons and which involved high tension and low tension distribution.

Mr. G. R. Kelkar is a graduate of the Victoria Jubilee Technological Institute of Bombay in Electrical Engineering and till lately was working at Messrs. Bundi Cement Works, Lakheri (Messrs. Killick Nixon & Co.), on erection work of 1725 K.V.A. High speed Turbo Alternator, Switch board, Turbine power house Auxiliaries and later on maintenance of Power house, 6,600 Volts Transmission line, Pumping station, maintenance of sub-stations, repair work, H.T. Transformers and machinery.

At present Mr. Kelkar is a Lecturer in Electrical Technology in the V. J. Technological Institute and is in charge of the Electrical Power house and Laboratory of the Institute, being assistant to the head of the Electrical department.

We are arranging to entrust the work of preparing specifications and the necessary plans with Messrs. Metropolitan Vickers Electrical Company, Limited, of Bombay as well as with Messrs. Cromptons, and all the work will be executed according to the Indian Electricity Act.

Messrs. Metropolitan Vickers have extensive experience in this class of work and have during the last three or four years carried out complete electrification schemes among others the following towns :—

1. Bharatpur.
2. Hyderabad (Sind).
3. Shillong.
4. Bhavanager.
5. Gondal.
6. Morvi.
7. Sholapur.
8. Ootacamund.

Letter from F. B. EVANS, Esq., C.S.I., I.C.S., Secretary to Government, Public Works Department, to Messrs. G. R. KELKAR and N. S. PADSIDRI, Y.M.C.A. Buildings, Cantonment Road, Mangalore, dated Madras, the 15th August 1925, No. 16-Gl.-5.

[The Mangalore Electric Licence—Your letter dated 4th July 1925.]

The Government propose to grant you a licence for the supply of electric energy in Mangalore on the terms of the accompanying draft. I am to inquire if you agree to the terms.

2. The map showing compulsory mains should be revised and resubmitted with reference to clause 8 (*a*) of the draft licence and the additional steets (8, 9 and 10) included in the first annexure to it.

X

Letter from Messrs. G. R. KELKAR and N. S. PADSIDRI, Co-operative Buildings, Santa Cruz Bombay, to the Secretary to the Government of Madras, Public Works Department, dated 19th November 1925.

[Re Mangalore Electric Licence.]

With reference to your letter No. 16 Gl.-5 of the 15th August, we would request the following amendments to be made in the terms of the draft licence enclosed therewith :—

A *Clause* 4—*Security—Sub-clause* (*b*).—(*b*) The period within which under clause 1 (*b*) of the Schedule to the Act the licensees shall deposit security and the sum so to be deposited shall, unless otherwise ordered by the Government of Madras, be *one year and Rupees five thousand respectively*. (The period be extended to one year instead of six months.)

FIRST ANNEXURE

Compulsory Works.—The following items to be omitted in the first annexure, i.e. :—

B 8. "Court road from Firewood Bazaar road past Kodialbail Church and northwards to junction with Kulur Ferry road."

9. "Kulur Ferry road from junction with Court road southwards; thence eastwards along with the first street in Pentland Town up to Sultan's Battery road."

In place of above we would suggest—

8. Court road from Firewood Bazaar road up to Kodialbail Church.

9. Court road from Kodialbail Church up to the junction with Dongerkeri street and thence along Dongerkeri street up to Hindustan Cinema.

THIRD ANNEXURE.

List of streets or parts of streets wherein all electric lines shall be underground—

1. Court New road
2. Car street.
3. Cloth Bazaar street.
4. Gollikatta Bazaar street
5. Firewood Bazaar street.

We request that this annexure may be omitted since the work will be executed to the satisfaction of the Electrical Inspector to the Government as put down in clause 7, sub-clause (2).

We request the deletion of the portion of the first Annexure on the following grounds :—

If the items 8 and 9 in the first Annexure be included, the area will be 70 to 80 per cent of the total area and the Capital Expenditure estimated at present will not be sufficient to carry the lines specified thereunder.

Secondly, there are other equally important areas, such as Kadre Road, Kankanady Road and Jeppu Ward, where the lines will be taken at a later date along with those specified in item Nos. 8 and 9 of the draft licence.

As the electric lines in the streets or parts of streets will be put up in consultation with the Electrical Inspector to the Madras Government, we do not find the necessity of including them as an annexure in the licence.

XI

Letter from M.R.Ry. N. VENKAT RAO Avargal, Chairman, Municipal Council, Mangalore, to the Secretary to Government, Local Self-Government Department, dated the 1st December 1925, Dis. C.R. No. 312/25-26.

With reference to Government Memorandum No. 21842-1 C,* L. & M., dated 7th August 1925, I have the honour to state that the Council has no remarks to offer on the subject of "The Mangalore Electric Licence, 1925". The Council welcomes the scheme.

[Mangalore Electric Licence—Your letter dated 19th November 1925.]

[Mangalore Electric Licence.]

We note that Government cannot accept any of the amendments proposed by us.

The map called for in paragraph 2 of your letter will be submitted shortly.

XIV

Letter from F. B. EVANS, Esq., O.S.I., I.C.S., Secretary to Government, Public Works Department, to Messrs. G. R. KELKAR and N. S. PADBIDRI, Catholic Bank Building, Cantonment Road, Mangalore, dated the 3rd February 1926, No. 16-Gl./25-10.

[Mangalore Electric Licence—Deposited map.]

The mains to be laid for supplying energy to Car street—item 6 in the first annexure to the draft licence—do not appear to be shown correctly in the map submitted by you. The black line on the map indicating the mains commences at the junction with Ice Beatrice street and extends up to New Court road. Whereas it

would appear that Car street actually commences at the junction with Cloth Bazaar street. Compulsory mains appear to be necessary at least from the junction with Azuzuddin road up to New Court road. It is therefore proposed to modify item 6 in the first annexure as follows :—"Car street from junction with Azuzuddin road up to New Court road." I am to return the map with the request that, it may be corrected accordingly and resubmitted.

Referring to your letter No. 16-Gl/25-10, dated Fort St. George, the 3rd February 1926, we have the honour to resubmit herewith the deposited map duly corrected to comply with the proposed item 6 to be modified in the first annexure as follows:—

"Car Street from junction with Azuzuddin road up to New Court road."

We have further the honour to request to be favoured with a receipt for Rs. 500 deposited to the credit of your department towards the prescribed fee along with our letter dated Madras, the 10th March 1925.

When any street is crossed not more than half the width of such street shall without the specific authority in writing of the Government of Madras or the local authority as aforesaid be closed for traffic.

(*c*) The licensees are further authorized to cross all rivers, streams and irrigation channels within or contiguous to the area of supply in accordance with such conditions as the Government may impose.

11. *Limits of prices to be charged in respect of the supply of energy.*—The prices to be charged by the licensees for energy supplied by them shall not exceed those stated in that behalf in the Fourth Annexure or in the case of a method of charge approved by the Government of Madras in accordance with clause X of the Schedule to the Act, such maxima as the Government of Madras may fix on approving the method.

(*b*) In accordance with section 8, sub-section (2), clause (*d*) (ii) of the Act, it is hereby expressly declared that the generating station within the area of supply belonging to the licensees and to be used in connexion with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act.

(*c*) During the period of notice prescribed in section 7 (4) of the Act, all extensions and outlays of money debitable to the capital account of the licensees shall be subject to the previous approval of the Government.

13. *Exceptions from the Schedule to the Act.*—In pursuance of section 8, sub-section (2), clause (*f*) of the Act, it is hereby expressly declared that clause IX of the Schedule to the Act shall be excepted from incorporation in this licence.

14. *Assignment of licence.*—At any time after the commencement of this licence, the licensees may, with the previous consent in writing of the Government of Madras, assign this licence or transfer the whole of their undertakings in respect of which this licence is granted (including all lands, buildings, works, materials and plant of the licensees) to a company formed or to be formed and registered in British India in accordance with the law in force in British India or in England under the English Companies Act, having authority to take over the licence and the said undertaking as the case may be and to exercise the powers and perform the obligations given to or imposed upon the licensees under this licence and the Act and the rules made under the Act and on such assignment or transfer the rights, powers and authorities, obligations and liabilities of the licensees shall be assigned and transferred to and shall be exercised by and shall attach to such company formed or to be formed as aforesaid.

[Memorandum No. 948-Ad.-4, dated 8th April 1925.]

From the Electrical Inspector to Government, No. 1088, *dated 5th May* 1925.

The advertisement was first published in the newspaper on the 16th March 1925. With reference to rule 13 (2) of the Indian Electricity Rules, 1922, a period of three months from the date of the issue of the first advertisement has to be allowed for the receipt of objections.

Please see the Electrical Inspector's remarks on pages 2-3, current file. With reference to his remarks at **A** on page 2, current file, a draft letter to the applicants is submitted.

The other remarks of the Electrical Inspector may be considered along with the objections, if any, that may be received in respect of the application.

[Letter No. 16-Gl.-1, dated 22nd May 1925.]

From Messrs. Kelkar & Padbidri, dated 25th May 1925.

The letter may be sent to the Electrical Inspector to Government u.o. for remarks with reference to paragraph 1 of his letter on page 2, current file.

A.S.M.—3-6-25.

P. K. SUBBA AYYAR—4-6-25.

The particulars furnished by the applicants are inadequate. They may be requested to give details of a few of the electrical works for which they and their Engineers have been personally responsible.

L. HENSHAW—5-6-25.

A draft letter to the applicants on the lines of the Electrical Inspector's note is put up.

F. B. EVANS—10-6-25.

[Letter No. 16-Gl.-2, dated 13th June 1925.]

From Messrs. Kelkar & Padbidri, dated 4th July 1925.

Please see the Electrical Inspector's note on page 1 ante. The applicants have furnished particulars on the point required. The file may now be sent to the Electrical Inspector to Government for remarks.

A.S.M.—9-7-25. P.K.S.—9-7-25.

The statements of the applicants are vague and do not indicate that they have been personally responsible for the execution of works of any magnitude.

However, as no public objections have been raised and as theirs is the only application received, sanction to the issue of a licence may, perhaps, be proceeded with and results be awaited.

L. HENSHAW—17-7-25.

Some slight alterations have been made in the draft licence to bring it into line with the model form.

L.H.—18-7-25.

The Electric Inspector's remarks on the draft licence submitted by the applicants are at pages 2–3, current file. Please see the revised draft prepared by the Electrical Inspector. The important alterations proposed by him are—

A (1) the raising of the security amount from Rs. 2,000 to Rs. 5,000; and
(2) the provision of compulsory mains in three additional streets.

The maximum charge for lighting and fan purposes is 8 annas per unit subject to a minimum monthly charge of Rs. 3. A special rate of 4 annas per unit is provided for energy required by the Municipal authorities. The charge 8 annas is rather high but presumably it will not pay the new company to charge at a lower rate. If the company find that the high charge is unattractive, they will reduce it, as the rate 8 annas per unit is the maximum they can charge.

The Electric Inspector's suggestions may be approved and the revised draft sent to the Government Solicitor for scrutiny before it is sent to the applicants for their acceptance. The map showing compulsory mains which has been deposited by the applicants will have to be revised and resubmitted by them with reference to clause 8 (*a*) of the draft licence and the additional compulsory mains proposed by Electrical Inspector to Government.

Not necessary.
F.B.E.—27-7-25.

A draft memorandum to the Government Solicitor is submitted. After issue of the memorandum, the file may be sent to Local Self-Government (u.o.) for perusal. Government have in G.O. No. 246 L., dated 14th July 1924, offered municipalities facilities for undertaking electric lighting schemes. Presumably the Mangalore Municipality do not wish to undertake this work as they have not raised any objections to the draft licence published. Local Self-Government may see the file also with reference to the Electrical Inspector's remarks against clause 9 on page 2, current file.

A.S.N.—27-7-25. F.B.E.—27-7-25.

LOCAL SELF-GOVERNMENT DEPARTMENT.

The Electrical Inspector's suggestions to extend electrification to the north end of Mangalore municipality may be approved. The file may be returned to Public Works Department u.o.

K.G.—3-7-25.

The Mangalore Municipal Council which is vitally interested in the grant of the licence has not been specifically called upon to offer its remarks on the application. It has also not raised any objections of its own accord. The Chairman of the Municipal Council as also the President of the South Kanara District Board are among the directors of the company which will work the licence. The application for the licence was also published in three issues of the local "Mangalore Mail" and "Kanteerava". It may perhaps be presumed that the Council has no objection to the grant of the licence or to the various clauses thereof including clause 9 in regard to the area of compulsory supply. If however it is considered that the Council's views should be definitely called for, the draft memorandum submitted below is for approval. After issue of the memorandum the case may be returned to the Public Works Department.

B.A.—5-8-25.

Draft below may issue.

C. B. COTTERELL—7-8-25.

I cannot see what is the use of publication (as required by statute), if we are to have to refer separately. Draft a final order now.

F. B. EVANS—12-8-25.

Please see the notes on page 2 ante. The draft licence may be sent to the applicants for acceptance before it is approved. The applicants may also be asked to revise the map showing compulsory mains. A draft letter is submitted.

[The reference made to the Municipality by Local Self-Government is not necessary—please see the notes under clause (*b*) on page 167 of Mr. Meare's book.]

[Letter to Messrs. G. R. Kelkar and N.S. Padbidri, No. 16-Gl.-5, dated 15th August 1925.]

From Messrs. G. R. Kelkar and N. S. Padbidri, dated 19th November 1925.

The applicants' letter may be sent to the Electrical Inspector to Government u.o. for remarks.

A.S.N.—25-11-25. F.B.E.—25-11-25.

U.O. No. 2722, *dated 5th December* 1925.

I offer the following remarks on the applicants' letter dated 19th November 1925:—

(1) *Portion* **A** *on page* 5, *current file.*—The applicants now request to be allowed one year for the payment of the security instead of the six months originally proposed by them. In the model licence a maximum of only *nine* months is provided. As the six months' period was originally proposed by the applicants themselves there is not sufficient reason now to extend that period. From the company's prospectus (not printed) it will be noted that the capital of the company is proposed to be about 7·5 lakhs. If they are in a position to finance the scheme they should be prepared to pay the security within the six months. Their request to have the period extended to one year appears to indicate their inability financially to carry out their obligations under the licence. The six months' time originally proposed should, therefore, be enforced.

(2) *Portion* **B** *on page* 5, *current file.*—The addition to the first annexure of the streets in items 8 and 9 was proposed by Mr. Greenwood *only* after an actual inspection of the area and in the interests of the town development. Paragraph 8 of his letter No. 1008, dated 5th May 1925, is very clear on the point. The applicants state that the streets in items 8 and 9 cover about 70 to 80 per cent of the total area, and the capital expenditure at present estimated will not be sufficient to carry the lines specified thereunder. The inclusion of the items 8 and 9 *in full* in place of those proposed by the applicants will require an additional run of only $1\frac{1}{2}$ miles of

mains costing not more than Rs. 10,000. There is, therefore, no reason for their omission, and I recommend that Government do not agree to the amendment proposed by the applicants.

(3) *Portion* C *on page* 5, *current file.*—The applicants state that the whole work will be executed to the satisfaction of the Electrical Inspector. This means that the work will be done strictly in accordance with the requirements of the Indian Electricity Act and Rules. The Electrical Inspector has not, however, powers to call on the licensees to run their mains either underground or overhead as he wishes but only as specifically provided for in the licence Before proposing the laying of underground lines in the streets referred to in the third annexure, Mr. Greenwood visited those streets and considered it essential in the interests of public safety that only underground lines should be run in those streets. Please see in this connexion paragraph 7 (*b*) of Mr. Greenwood's letter No. 1088, dated 5th May 1925. I am of the opinion, therefore, that the applicants, request to omit the third annexure should be turned down.

L. HENSHAW—5-12-25.

I think we may accept Mr. Henshaw's advice.

[Letter No. 16 Gl.-8, dated 9th December 1925.]

From Messrs. G. R. Kelkar & N. S. Padbidri, dated 18*th December* 1925 *and* 18*th January* 1926.

The Electrical Inspector may be requested u.o. to state whether the map submitted by the applicants is in order. On receipt of the file back a draft order sanctioning the licence will be put up.

A.S.N.—21-1-26. F.B.E.—22-1-26.

I have scrutinized the map with reference to the first annexure and with one exception it appears to be in order.

2. The exception is in regard to Car street listed as item 6 in the first annexure. The black line on the map indicating the mains commences at the junction with Ice Beatrice street and extends up to New Court road whereas it would appear that Car street actually commences at the junction with Cloth Bazaar street. Compulsory mains appear to be necessary at least from the junction with Azuz-ud-din road up to New Court road. As the map is not clear I suggest that item 6 of the first annexure be modified as follows :—

" Car street from junction with Azuz-ud-din road up to New Court road ".

3. As the licence will be issued this year the title should be changed to 'the Mangalore Electric Licence 1926 '.

L.H.—26-1-26.

PUBLIC WORKS DEPARTMENT.

The first annexure and the title of the licence have been modified as suggested by the Electrical Inspector above. A draft order sanctioning the grant of the licence is put up.

2. The question of appointment of an auditor referred to in paragraph 4 of the draft order may be taken up after the licensees deposit the security.

3. The map referred to in clause 5 of the draft licence will be submitted to Secretary for signature on the date on which the licence will be published in the Gazette.

4. A draft letter forwarding copies of the licence to the Governments of Bengal and Bombay is also put up

A.S.M.—29-1-26.

[The portion enclosed in pencil brackets in the last two lines of clause 2 (4) of the licence may, if approved, be deleted. The map has been signed by both the applicants but not " under the name and style of Messrs. G. R. Kelkar & N. S. Padbidri, Bombay."

Yes.
F.B.E.

Another point for consideration is whether before issuing the drafts, the applicants should not be required to correct the map with reference to the remarks made by the Electrical Inspector to Government in paragraph 2 of his note. Clause 8 of the draft licence says that " in the case of difference between the description in the first annexure and as indicated on the deposited map, the latter shall prevail ". The alteration proposed by the Electrical Inspector to Government in the first annexure should therefore, it seems, be also carried out in the map.

Yes.

Please see the notes above. The map has been corrected to correspond with the modification proposed in the first annexure. The draft order and the draft letter to the Governments of Bengal and Bombay already put up in the file are for approval.

2. A draft letter informing the applicants that the fee of Rs. 500 deposited by them has been received is also put up.

OBJECTS

The primary object of the Company is to supply Electric Power for lights, fans and other domestic, civic or industrial purposes within the congested area of the town of Mangalore. This having been satisfactorily accomplished other parts within the Municipal Area will be served, as a matter of course, under the provisions of the Indian Electricity Act. The Memorandum authorizes *inter alia* the installation of a telephone system when authorized by Government.

To answer this purpose it is intended to install three generating sets each of 80 K. W.,

With auxiliaries and switch gear estimated ... ... @	Rs. 1,20,000/-
Buildings, Power house, Office, workshop, and storehouse	,, 18,000/-
About 10 miles of transmission and distribution lines...	,, 72,000/-
Transformers, Switches, and protective gears	,, 10,000/-
Cost of License, registration and other Preliminary expenses estimated ...	,, 6,000/-
Provision for the purchase of meters and to cover the first year's operating charges	,, 24,000/-
Total Rupees	2,50,000/-

The immediate design is to meet an emergency demand of 240 K. W. but the safe maximum demand shall be only 160 K. W. and the "Load factor" of the Power House is expected to be 25% of its full (240 K. W.) capacity, so that the units generated in one year (neglecting the year of construction) will be 5,25,000 of which 20% will be absorbed in Power House, and distribution losses, leaving 4,20,000 units; sold at an average price of 4 annas and realising Rs. 1.05,000. The generating and management cost of 5.25,000 units (@ 2 annas per unit) will be Rs. 65,625/-

leaving a net profit of	Rs. 39,375/-
Deducting 6% general depreciation on 2½ Lakhs	,, 15,000/-
Balance	,, 24,375/-
Deducting 6% interest on Ordinary shares	,, 15,000/-
Balance	,, 9,375/-

There would be some 3000 'Consumers Shares' embodied in the scheme, amounting to Rs. 30,000 which being added to the Rs. 2,50,000 of Ordinary shares gives a total of Rs. 2,80,000 upon which the profit of Rs. 9,375 is to be divided in the form of a bonus of Rs. 3. 3%.

By this arrangement the Ordinary shareholders are assured 6% interest on their outlay plus a bonus of 3. 3% whereas the holder of 'Consumer' shares is getting 3. 3% bonus computed upon the cost of his service line where under the ordinay procedure he would get no return whatever.

These profits of the Company are based on an absolute minimum and will be always on the increase, proportional to the patronage of consumers who will therefore be directly contributing towards their own gains while enjoying the many services that Electricity will be rendering them.

The future before the Company is of considerable promise and magnitude, embodying the modernising of existing industries and initiation of others that will spring up when cheap power is at the disposal of the public. Among the future prospects are:—

1. Power and Electric furnaces for tile factories assuring a regularity of turn-out and eliminating all possible chances of overheating and discolouring of tiles, absolute independence of monsoon problems, etc.,

2. Power for spinning, weaving, saw-mills, Soda and Ice factories.

3. Power and furnaces for foundries and mechanical works with Electric Welding outfits and other Electric devices.

4. Power for Oil mills, Flour and other grinding mills, presses, refineries, and Electrolysis for the conversion of oil to butter.

5. Power for laundries, Electroplating, Electrotyping, Battery charging, for general surgical purposes and for domestic purposes such as Cooking, heating, churning, etc.

6. Pumping for private or civic purposes

It becomes necessary for economy in outlay and operation to have central Pumping stations when water is required for distributing in large quantities, but when water exists all over the town and Electric power is also available, there is no further need for a central pumping station, as small electric pumps are very efficient and inexpensive both in initial and operating costs.

7. Power for coir rope and mat making plant.

8. Power for the development of the Port and the Fish Oil industry on Sand-spit.

Minimum Subscription.

The Minimum cash subscription fixed by the Articles of Association upon which the Directors will proceed to allotment is 4000 shares.

Brokerage and Commission.

INSTRUCTIONS FOR THE SECRETARIAT.

(*a*) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(*b*) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(*b*1) For rules regarding printing of notes, see rule 315 of the office Manual.

(*c*) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(*d*) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for *one* week, and larger papers for *two* weeks only. *The type of notes and of all confidential papers is distributed immediately after striking.*

(*e*) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(*a*) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(*b*) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(*c*) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(*d*) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(*e*) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.
